COMET LOSES ITS DELICATE ODOR

Peach Blossom Smell Has Evidently Vanished—No More Cyanogen.

Washington, D. C., May 12.—Cyanogen is now practically absent from the tail of Halley's comet, according to a dispatch received today by Georgetown university from the Lowell observatory at Flagstaff, Arizona.

This is a very simple little matter, which the people will be glad to know. Webster's Unabridged Dictionary gives the following definition of cyanogen: "Cyanogen, (a dark blue substance, so called because it produces blue dyes)—a colorless, inflammable, poisonous gas with a peach blossom odor, so called from its tendency to form blue compounds, obtained by heating ammonium cyanide, mercuric cyanide, etc. It is obtained in combination, forming an alkaline cyanide when nitrogen or a nitrogenous compound is strongly ignited with carbon and soda or potash. It conducts itself like a member of the halogen group of elements and shows a tendency to form complex compounds. The name is also applied to the univalent radical (the half molecule of cyanogen proper) which was one of the first compounds of radicals recognized. Cyanogen is found in the commercial substances, potassium cyanide, or prussiate of potash, yellow prussiate of potash, Prussian blue, Turnbull's blue, prussic acid, etc."

ARIZONA ROBBERS CAPTURED IN AUTO

Phoenix, Ariz., May 13.—It was two boys, still in their teens, who held up the Arizona Eastern passenger train near here Wednesday evening and, who after a chase across the desert, were captured last night. The boys give the names of Ernest Woodson, aged 18, and Oscar Woodson, 17, and say they reside in Oklahoma City, Okla., and had been in Arizona only a short time.

The boys were preparing to make camp five miles south of Casa Grande when a pursuing automobile came along. Oscar thinking the car contained tourists, stopped out and asked for water. He was immediately covered by revolvers and surrendered and his companion then submitted to arrest.

Sheriff Hayden, of Phoenix, and sheriff Nelson, of Tucson, who headed the posse, declare the trail of the bandits was marked along the way by rifled pocketbooks and purses of the passengers who were on the train. The purse of deputy sheriff Sturges, of Gila county, containing \$35, was found where the bandits had dropped it in their flight.

The young bandits were veritable walking arsenals. They carried a rifle, four revolvers and two bowie knives. Both are "tenderfeet" and were too weak after an 80 miles desert ride to make a fight.

UNEQUALED FOR BAD BLOOD

Normal, healthy blood contains millions of tiny red corpuscles, which are the vitalizing and nourishing element of the circulation. These corpuscles are constantly forming in healthy systems by the extraction of nutriment from food eaten, and this nutriment is then supplied through the circulation to every portion of the system. Any system which does not receive the proper amount of blood nourishment is not prepared to withstand the countless disorders that assail it. Bad blood can not nourish the body, the circulation must be pure, rich and strong if we would enjoy good health. Bad blood manifests itself in various ways. With some it takes the form of skin diseases and eruptions, others become bilious and malarious, with sallow complexions, torpid liver, etc. If the germs and impurities in the blood are of a more virulent nature then bad blood becomes more serious and produces Rheumatism, Catarrh, Sores and Ulcers, and like troubles. Nothing equals S. S. S. for bad blood. It is Nature's own blood purifier, made from roots, herbs and barks. It goes into the circulation and removes every impurity or poison, strengthens and enriches the blood, and in this way supplies the body with the proper amount of nutriment to maintain good health. S. S. S. is likewise the finest of all tonics and while purifying the blood builds up every portion of the system. S. S. S. cures every ailment coming from bad blood, and it does so simply because it purifies the circulation. Book on the blood sent free to all who write, THE SWIFT SPECIFIC CO., ATLANTA, GA.

BROWNWOOD GUARANTEES \$50,000 FOR A SHORT RAILROAD
Brownwood, Tex., May 13.—A \$50,000 railroad bonus was raised at a mass meeting here Thursday night and a contract signed with R. A. Love to build from here to the Rockwood coal field, 35 miles southwest. The grading contracts will be signed next week.
